◆ ABOUT RICHEL

I am Richel Morales Otero, a housekeeper and childcare support worker in Madrid, with international experience in Spain, Bahrain, Qatar and Saudi Arabia.

I have experience in home cleaning and organization, laundry, ironing, basic cooking and daily family support, helping to keep the home clean, tidy and comfortable.

I have also worked caring for babies, toddlers and school-age children, supporting their daily routines, supervision, wellbeing and companionship while following the family's instructions.

I consider myself a responsible, respectful, patient and caring person with children. I adapt easily to different homes and value trust, discretion and clear communication with the families I work for.

I also have professional and clinical care training completed in Bahrain, which complements my practical experience in family and care environments.

I am currently looking for opportunities as a housekeeper, childcare helper, nanny, babysitter or family support worker in Madrid and nearby areas, either by the hour or in a stable position.

I like working in family homes where there is respect, trust and good communication. I believe small details, punctuality and daily care can make a real difference in a family's wellbeing.
